RRETH NESH

Kompania jonë ka filluar veprimtarinë e saj në vitin 2010, në zonën industriale në Fushë Kosovë-Prishtinë. Ajo është e ndërtuar në një sipërfaqe prej 15000 m2, ku në një zonë të mbyllur prej 5500 m2, janë vendosur 8 copë Super Corona Liga pistoleta të cilat punojnë me ndihmën e kompjuterit robot. Per t'ju përgjigjur sa me mirë kërkesave të konsumatorëve, ne dhjetor te vitit 2012 kemi ndërtuar edhe një linjë prodhimi prej 1100 UST me fuqi të plotë automatike.

Brenda një periudhe afatshkurtër, ne kemi synim të përhapemi në tregun Evropian dhe ti përgjigjemi kërkesave dhe standardeve Evropiane.
Në vitin 2015, në bazë të porosisë që kemi dhënë për fabriken e shkrirjes së aluminit, synojmë të sigurojmë vetë lëndën e parë, në mënyrë që kosto e prodhimit të jet më e ulët, rrjedhimisht çmimi tek konsumatori të jet më i ulët.
Duke qenë se jemi fabrika e parë në Kosovë për prodhimin e aluminit, për këtë jemi krenarë, por në të njejtën kohë, e kuptojme që edhe përgjegjësia jonë është më e madhe.

QËLLIMI YNË

Duke punuar me një frymë ekipore, qëllimi ynë është të kemi përmirësim të vazhdueshëm, të punës sonë, për të arritur dhe ofruar produkte të cilësisë më të lartë, në bazë të standardeve Evropiane në industrinë e prodhimit të aluminit.

EKSTURSIONI

Makineria jonë prej 1100 UST ka një kapacitet prej 3600 ton/vit. Qëllimi ynë është që të arrijmë një kapacitet të plotë, me të gjitha karakteristikat e nevojshme (0.100gr/ mt-2500gr/mt).
Teknologjia jonë është një nga më të përparuarat e cila i ka kaluar të gjitha testet e nevojshme teknike dhe natyrore.

VIZIONI

Kërkesat e klientit të jenë në plan të parë, Të respektojmë, mjedisin, natyrën dhe shoqërinë
Komunikim i vazhdueshëm, dhe mbështetje e burimeve njerëzore, për të ndihmuar dhe zhvilluar krijimtarinë e tyre.Përdorimi me efikasitet i të gjitha burimeve.
Klientët tanë dhe furnizuesit të punojnë me një ndjenjë të planeve të integritetit.
Marrëdhëniet tona tregtare dhe shoqërore, do të jenë gjithmonë të besimit reciprok, etike dhe të ndershme.

NGJYROSJA

Synimi ynë është që të arrijmë kapacitetin e plotë të ngjyrosjes së profileve me 3000 ton/vit dhe të jetë i standardeve Evropiane.

ABOUT US

Our company has started its activity in the year 2010, at the Fushe Kosova industrial zone, in Prishtina. Our facility con-sists of 15000 m2. The main building has an area of 5500 m2, where we have put 8 Super Corona Liga pistols, all of which is connected and commanded by the computer robot. In order to fulfill our costumers' requests,in December 2012 we have build a new 1100 UST fully automated production line.

We plan to expand into European market in the near future and to fulfill European requirements and standards.Based on our current production orders, for 2015 we plan to start aluminium melting in our own factory in order to get the raw material needed to lower the production costs, therefore to lower the price for our customers.
We are proud to be the first aluminium factory in Kosovo, thus we do understand that we bear a large responsibility.

OUR MISSION

We tend to improve our work process furthermore, while maintaining a team work culture, in order to reach the highest quality products, based on European aluminium industry standards.

EXTRUSIUON

Our 1100 UST has a capacity of 3600 tons per year.Our goal is to reach the full potential, with all the required features (0.100gr/mt-2500 gr/mt).
We possess a modern technology which had past all the required technical and natural tests.

OUR VISION

Focus on customers' requests. Respect the environment, the nature, and the society. Extended communication to support the human resourc□es, to help develop their creativity. Efficient use of all resources. Integrity towards our clients and suppliers We expect that our trading and social relationships will always be based on mutual trust, good manners, and honesty.

PAINTING

Our goal is to achieve the full painting capacity of alumin□ium profiles with 3000 tons per year, based on European standards.

ÜBER UNS

Unsere Firma hat mit ihrer Tätigkeit im Jahr 2010, in der Industriezone in Fushë Kosova – Pristina, begonnen. Sie ist auf einer Fläche von 15.000 m2 gebaut, wo in einer geschlossenen Fläche von 5500 m2, 8 Stück Super-Corona Liga Pistolen eingebaut sind, die mit einem computergestützten Roboter arbeiten. Um besser auf Kundenanforderungen zu reagieren, haben wir im Dezember 2012 eine Produktionslinie von 1100 UST mit voller automatischer Leistung gebaut.

In einem kurzen Zeitraum wollen wir uns im europäischen Markt verbreiten und auf künftige europäische Anforderun-gen und Normen zu antworten. Im Jahr 2015, gemäß den vorhandenen Aufträgen, die wir auf die Aluminiumschmelzw-erk gegeben haben, wollen wir den Rohstoff selbst bereitstellen, so dass die Produktionskosten von Strahl niedriger fallen, so dass der Preis für den Verbraucher niedrigerer fällt. Als erste Fabrik im Kosovo, die sich mit der Herstellung von Aluminium beschäftigt, sind wir sehr stolz darauf, aber zur gleichen Zeit, sind wird bewusst, dass somit unsere Verantwortung noch größer ist.

UNSER ZIEL

Wir arbeiten mit Teamgeist, wo unser Ziel die kontinui-erliche Verbesserung unserer Arbeit ist, damit unsere Produkte höchste Qualität erreichen, die gemäß eu-ropäischen Standards welche bei der Herstellung von Aluminium vorgesehen sind.

DIE EXTRUSION

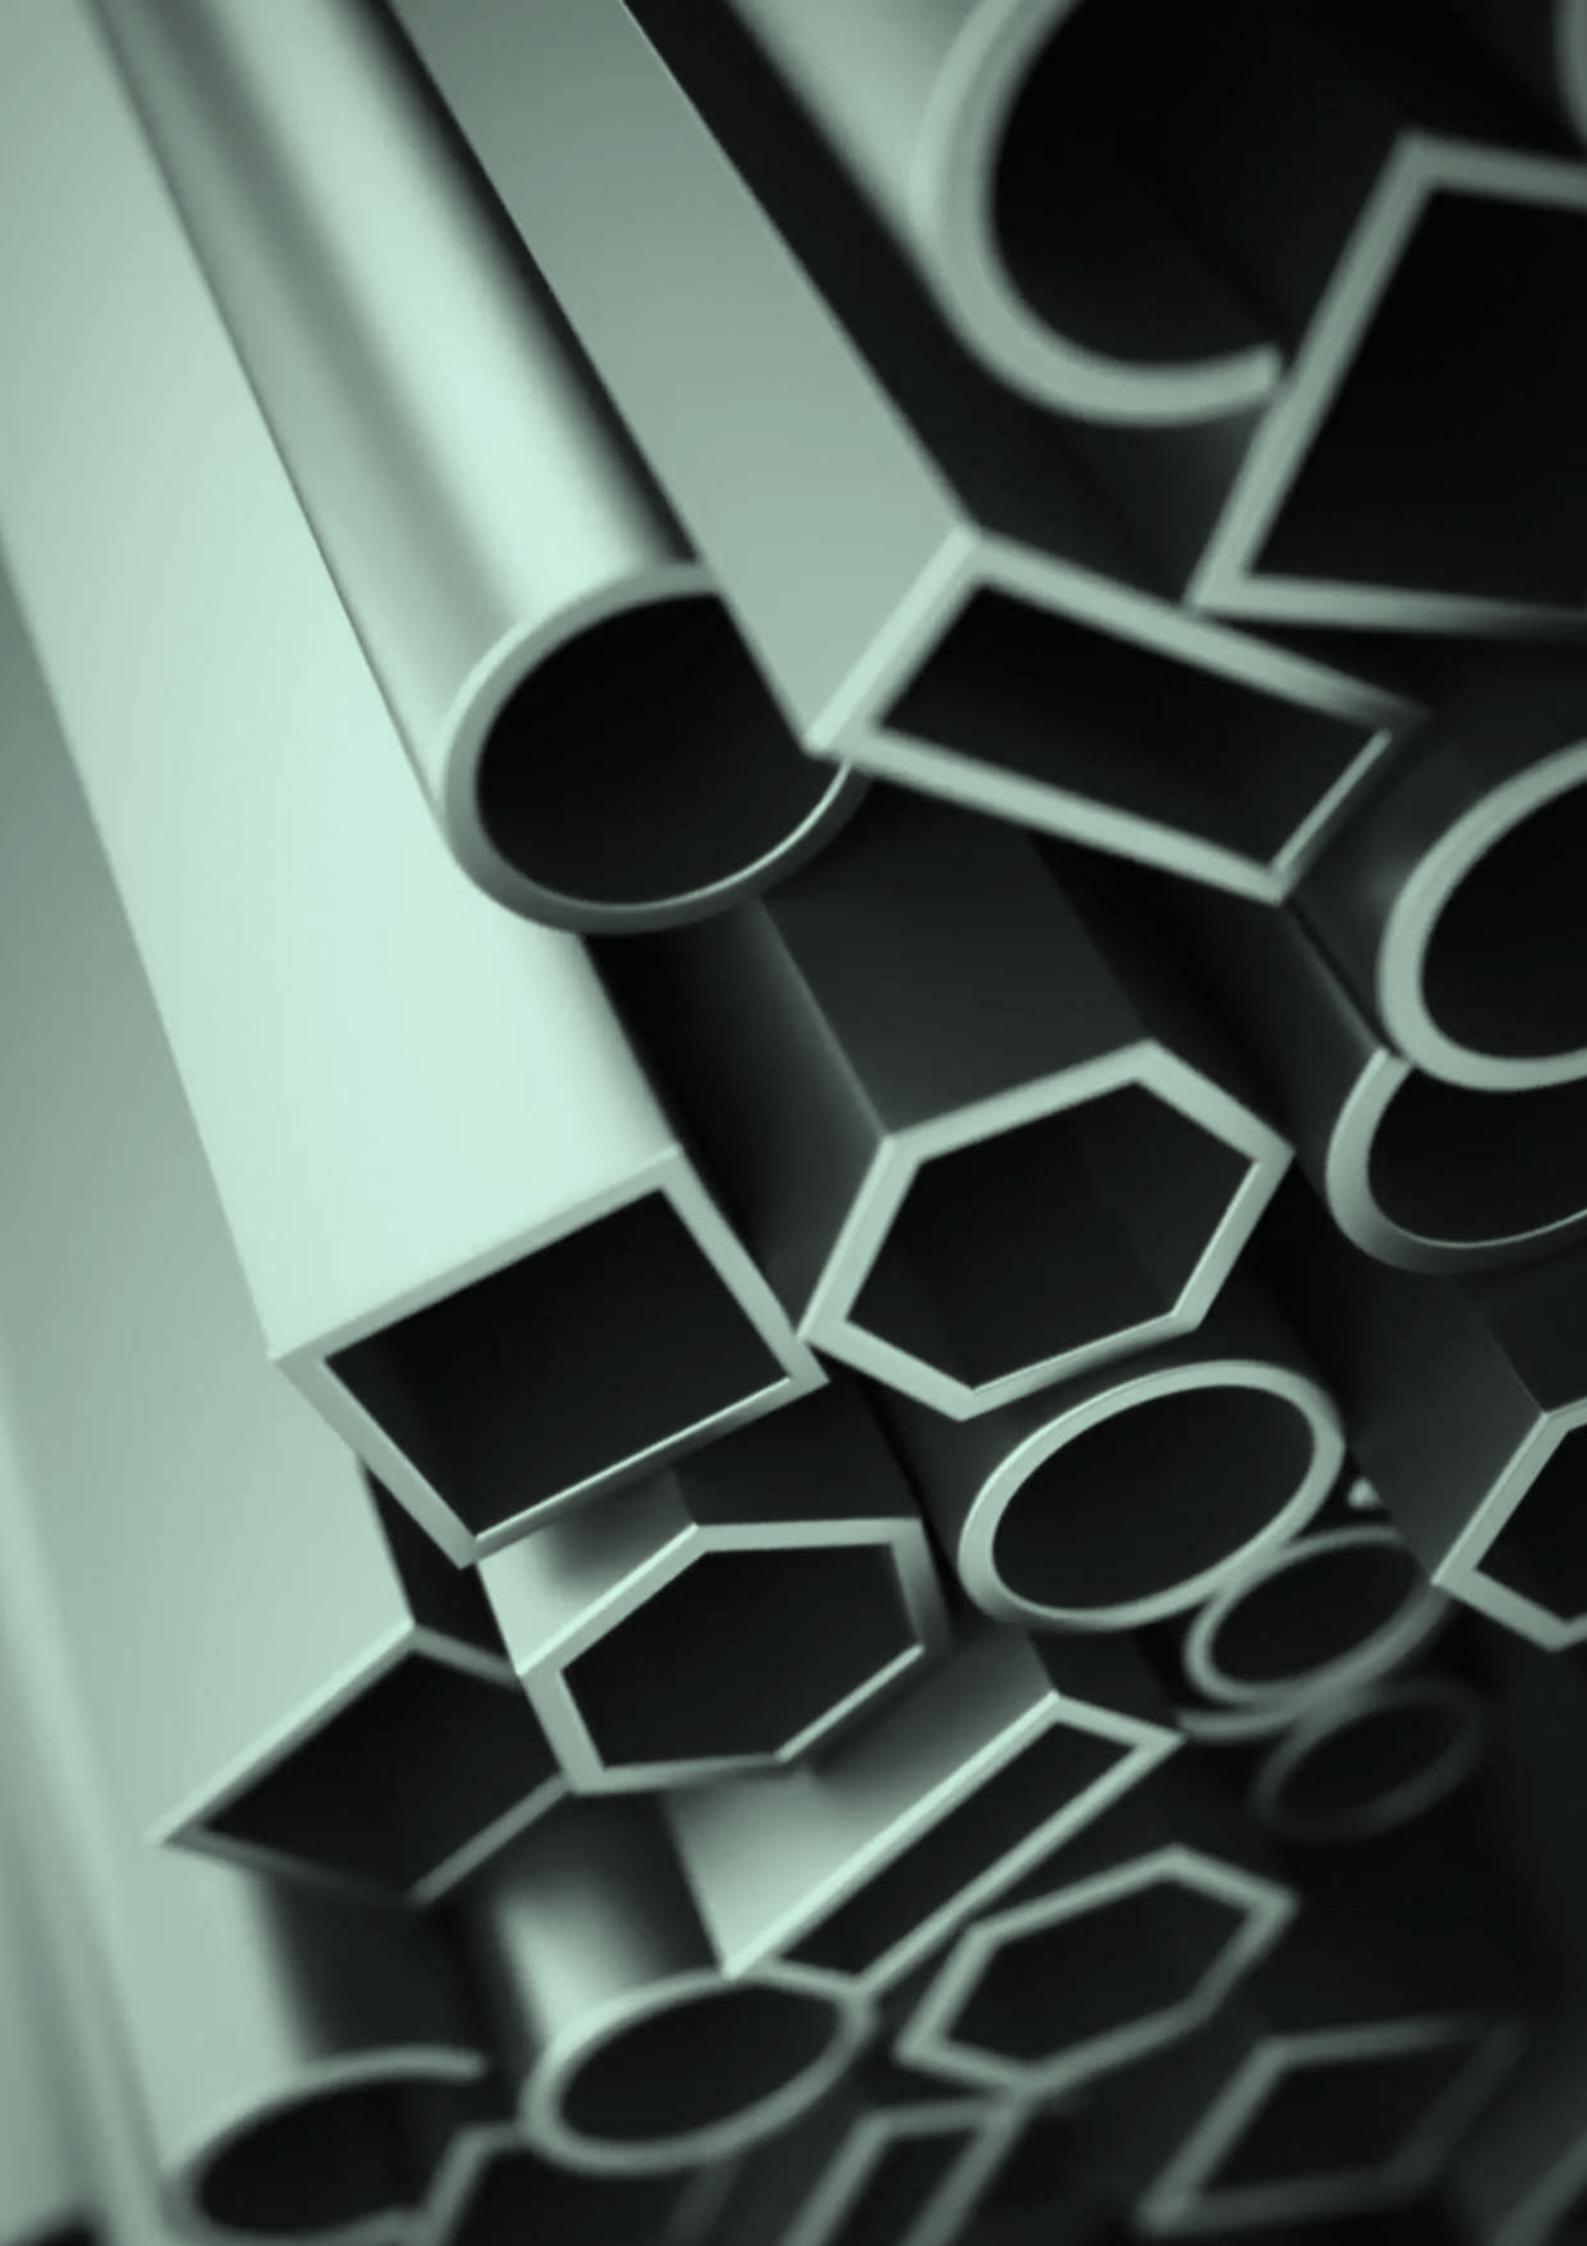

Unser Maschinenpark von 1100 UST hat eine Kapazität von 3600 Tonnen/im Jahr. Unser Ziel ist die volle Kapazität, mit allen erforderlichen Funktionen (0.100gr/mt-2500gr/ mt) zu erreichen. Unsere Technologie ist eine, die alle fortgeschrittenen und notwendigen Tests, technischer und natürlicher Na-tur, bestanden hat.

USERE VISION

Die Kundenanforderungen stehen bei uns im Vorder-grund. Wir respektieren, die Umwelt, die Natur und die Gesellschaft, wir haben ständige Kommunikation und Unterstützung mit den Humanressourcen, die uns hilft unsere Kreativität weiterzuentwickeln. Die effizientere Nutzung aller Ressourcen. Unsere Kunden und Lieferanten, arbeiten mit einem Gefühl der Integritätspläne. Unsere kommerziellen und sozialen Beziehungen, werden immer mit gegenseitigem Vertrauen, ethisch und fair sein.

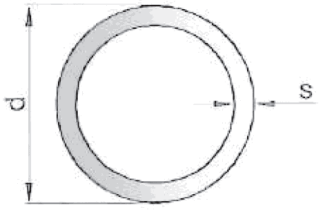

DIE FÄRBUNG

Unser Ziel ist die volle Kapazität der Färbung der Profile mit 3000 Tonnen/Jahr gemäß den europäischer Normen zu erreichen.
